6 Line Square Tube Jurassic Bracket

- Ideal for coastal use
- Dimension: 20mm X 20mm X1.6mm
- Available in black or white Powder coated

Nemtek brackets are made to a high standard to maximise security and ensure long life in the field. The level of security achieved is directly affected by the choice of bracket, the number of wires forming the electrical barrier and the distance between the brackets. Nemtek offers a large range of brackets to suit most wall types and applications. They are made from steel and are finished in a high quality outdoor hot-dip galvanised and powder coating for coastal conditions. On request, different types of designs and finishes can be manufactured.
