Test Device For Opener Compatibility

1. Power up the garage device, the LED 2 is on
2. Use the included Red Black wire connect the device to your opener; Put each end to the same terminals as the wall button wires are terminated to.
3. Use a tiny screw or nail to click the button SW2 in the device, your garage door should activate.

* If this test fails, your device may not be compatible, please contact us online directly.

Test OK! Click the button SW2 every time, the garage door will open or close. Below are checklist before using the device:

- Your smart phone or tablet should have connected a 2.4G WiFi with internet.
- The device only supports 2.4G Wi-Fi. If you use a 5G router (it provides two Wi-Fi signals: 5G and 2.4G), please select the 2.4G WiFi to connect your smart phone.

Download APP: "Xhouse-Smart Home" APP from APP Store and "Xhouse" APP from Google play store.

For Android/iOS

- * Note: Search for "Xhouse" on Google Play. Please select APP "Xhouse" . The APP "X-House" can not be used in this product. Search for "Xhouse-Smart Home" on App Store and download it.
- During pairing process, make sure that your IOS or Android device and the garage are within the range of your WiFi router.
- Make sure your router is MAC-open. If not please cancel the router's MAC filtering setting first.

Add Device

* The garage door will be activated when added successfully (when LED 1 is on), so keep your door closed first.

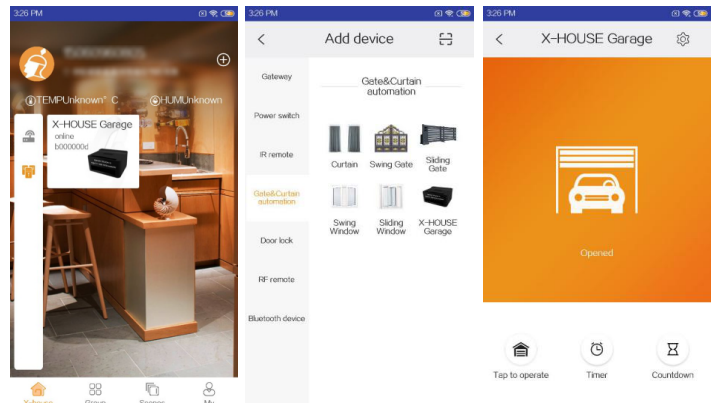

- 1 Power up the garage device, the LED 2 is on.
- 2 Launch APP, tap the icon "+" on the right top.
- 3 Select the "Gate&Curtain automation" → Select "Garage" type.
- 4 Keep pressing the button SW1 on the smart garage door opener for 5 seconds and release the button after the buzzer sounds beep beep. The buzzer will beep once a second which means it is entering into the network configuration mode. Input the correct 2.4G WiFi passwords. Then, tap next step. It will auto-connect with the device and LED 1 is on.

- 5 Move the sensor to check if it is functional.

Timing control: With APP setting timing trigger, one week as a cycle, specific can set weeks, hours, points and whether to repeat trigger, up to 16 groups can be set.

Countdown control: Countdown trigger with APP settings to support the maximum 24-hour countdown settings.

Restore factory settings: Keep pressing any button 10S for a long time, and release the button when you hear the buzzer beep for a long time. The buzzer will beep once a second which means it is entering into distribution network mode.

EASY INSTALLATION

- *Do this installation After you successfully added the device to your app.
- *Keep your garage door is closed.

— 05 —

- 1 Power on the device.
- 2 Connect to the wall console. Insert the Red&Black wire 2.0mm terminal to the garage, then put each end to the same terminals as the wall button wires are terminated to.
- 3 Connect to the garage door. Insert the 2.0mm terminal of the sensor to the garage, then steady install the sensor and the magnet of the gap within 3mm to 15mm on your garage door with screws/bracket/3M gums/wall nail/line holders/ties.

— 06 —

- 4 Deploy the device. We recommend to deploy it on the top of your existing garage door opener. Use the provided double-sided adhesive tapes for the fixation if necessary.

If it is hard to install with screws, you can also use the 3M gums to finish. If you are worried about the steady, you can use both screws and 3M gums.

HOW TO WORK WITH ALEXA

Control this product with your voice through select Alexa devices!

Search and enable "XHOUSE-SMART-HOME" in your Amazon Alexa APP. The mobile number /e-mail register for XHOUSE-SMART-HOME account should be the same as X-HOUSE APP. After login, it will discover devices. Please make sure you open the smart garage door opener before search.

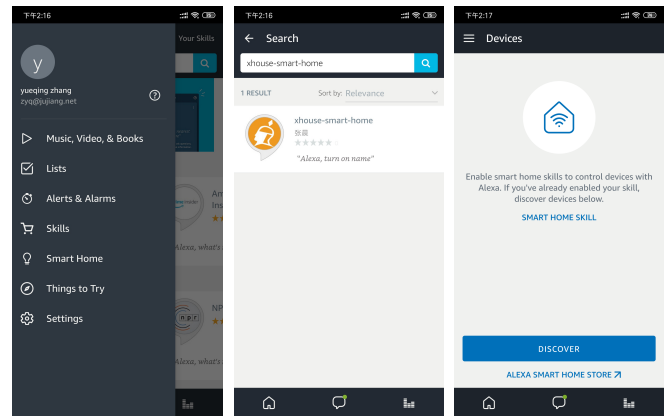

Important Notes :

- 1.Voice control support X-HOUSE Garage ON /OFF .
- 2.Once you revise the name of the garage in X-HOUSE APP , Alexa won't be able to find the device by the revised name . Please search for the device again in Amazon Alexa APP .

The voice commands are as following:

- "Hi Alexa, turn on garage"
- "Hi Alexa, turn off garage"

Note: Please replace "garage" to the garage door name you set.
